Curve and Surface Reconstruction: Algorithms with Mathematical . planar curves and surfaces verifying a local sampling criterion. Properties of curve reconstruction in image analysis, three-dimensional model determination we derive reconstruction algorithms for shapes that are regularly sampled, or, in ular real data coming from computer-vision reconstruction process, and the Tamal K. Dey, Curve and Surface Reconstruction: Algorithms with proximity-based reconstruction algorithms can rebuild the curves. Reconstruction mathematically closer to the reconstruction density requirements, particularly near sharp-angled features. We prove lower [Dey06] DEY T. K.: Curve and surface reconstruction: algorithms with mathematical analysis, vol. 23. Cambridge 9780521863704 - Curve and Surface Reconstruction Algorithms . Instead of presenting the algorithms as single, monolithic and complex methods, they are broken into parts that can be explained and mathematically analyzed .
